ABOUT ME:-

Motivated Electrical and Electronics Engineering undergraduate pursuing a B.Tech under the KTU syllabus with a strong foundation in electronics and electrical systems. Skilled in analytical problem-solving and applying engineering concepts through academic projects and coursework. Eager to learn new technologies and contribute effectively to engineering and technical projects.

Educational Background

Primary Education

- Bharathamatha Higher Secondary School *2009-2019*

Secondary Education

- Govt. Technical High school Palakkad *2019-2022*

Higher Secondary Education

- ASSISI English Medium Higher Secondary School , Palakkad 2022-2024

Graduated in (currently pursuing)

- Amal Jyothi College of Engineering, Kanjirapally, Kottayam
  B.Tech in Electrical and Electronics Engineering
  2024-2028

Skills & Proficiencies

- • Basic electronic circuit design and analysis
- • Programming fundamentals (MATLAB,VHDL / basic coding)
- • Problem-solving and analytical thinking
- • Familiar with electrical machines and power systems concepts
- • Basic knowledge of machine learning concepts
- • Fluent in English and Malayalam,Tamil
- Moderately fluent in Hindi

Work Experience & Certifications

- **Engineering Intern**

Agnirva Technologies
2025
Completed a technical internship gaining practical exposure to electronics systems, engineering workflows, and problem-solving in real-world applications.
Arduino & Embedded Systems Training

- **Arduino Master Class**

2025
Trained in microcontroller programming, sensor interfacing, and embedded system fundamentals using Arduino platforms.

- **NPTEL Certifications – Internet of Things & Python Programming**

NPTEL
2025
Completed certified courses covering IoT architecture, device connectivity, and Python programming for engineering applications.

- **Cybersecurity Analyst Job Simulation**

Virtual Experience Program
2025
Explored cybersecurity fundamentals including threat identification, vulnerability analysis, and security practices.

- **Technical Workshops – PCB Design & 3D Printing**

IEEE / Engineering Workshops
2025
Participated in hands-on workshops on PCB designing, circuit fabrication techniques, and rapid prototyping using 3D printing.

- **Innovation & Technical Competitions**

Smart India Hackathon (SIH), Google Solution Challenge, NASA Space Apps
2024 – 2025
Engaged in national and international innovation challenges focused on developing technology-based solutions to real-world problems.

- **Technical Events & Professional Engagement**

IEEE Wired Wonders, Skyborne Robotics IEEE
2025
Participated in technical events and robotics activities to enhance practical engineering knowledge and teamwork skills.

- **Academic Achievement**

B.Tech Electrical & Electronics Engineering – S2 Honours CGPA
2025
Maintained strong academic performance with honours in the second semester.
